

Session 1

Clinical Guideline & Key Updates

Chair - Vias Markides & Tom Wong

08.25 - 08.30
Welcome & Introduction

08.30 - 08.45
2018 HRS Update on Optimal ICD Programming- What don't we know already?
Paul Scott

08.45 - 09.00
2018 HRS Statement on Arrhythmogenic Cardiomyopathies - Key insights
Hugh Calkins

09.00 - 09.15
2018 ACC/AHA/HRS Guideline on Bradycardia and Cardiac Conduction Delay - What's new?
Kenneth Ellenbogen

09.15 - 09:30
AF ablation - What lessons can we learn from Real World Data
Douglas L. Packer

09:30 - 09:45
Non-invasive radiotherapy for VT ablation - predicting the future
Douglas L. Packer

09.45 - 10.10
Debate - Cabana AF ablation - is it more than rhythm control?
Chairs - Thomas Lüscher

10.10 - 10.25
Ask the Expert - Floor open for questions
Chair - Vias Markides

10.25 - 10.55
Refreshments

Session 2

Frontiers in Device Therapy

Chair - Vias Markides & Wajid Hussain

10.55 - 11.10
Subcutaneous ICD's are we implanting enough?
Reinoud Knops

11.10 - 11.25
His bundle pacing - many potential indications but is it ready for primetime?
Kenneth Ellenbogen

11.25 - 11.40
Conducting CMR in Device Patients - a storm in a teacup
Martin Lowe

11.40 - 12.05
Debate: Should leadless pacing be only for those patients who are contra-indicated to a conventional system?

Chair - Professor Thomas Lüscher
Pro - Francis Murgatroyd
Con - Reinoud Knops

12.05 - 12.20
Ask the Expert - Floor open for questions
Chair - Professor Mark Mason

12.20 - 13.20
Lunch

Session 3

The Ventricle

Chair – Roger Winkle & Julian Jarman

13.20 - 13.35

The changing landscape of ECG monitoring

Christopher Piorkowski

13.35 - 13.50

Re-defining the critical isthmus in VT – LAVAs and low voltage are not the whole story...

Elad Anter

13.50 - 14.05

The inflammatory VT substrate

Pier Lambiase

14.05 - 14.20

Non-invasive 3D mapping for VE & VT ablation

Sabine Ernst

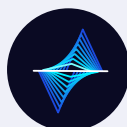

14.20 - 14.45

Debate: VT ablation - Substrate modification should be 1st line strategy in all

Chair - Francis Murgatroyd

Pro - Frederic Sacher

Con - Elad Anter

14.45 - 15.00

Ask the Expert - Live Panel Q&A

Chair - Dr Julian Jarman

Panel - Session 3 Faculty

15.00 - 15.25

Refreshments

Session 4

The Atria

Chair – Sabine Ernst & David Jones

15.25 - 15.40

Electroporation for atrial fibrillation

Peter Loh

15.40 - 15.55

Personalised mapping and ablation of AF

Richard Schilling

15.55 - 16.10

High power short duration RF lesions – what is stopping us from switching?

Roger Winkle

16.10 - 16.25

Left atrial appendage occlusion/ isolation – does it have a role in AF ablation?

Tim Betts

16.25 - 16.50

Debate: High Density Mapping – is this the end for entrainment?

Chair - David Jones

Pro - Roger Winkle

Con - Richard Schilling

16.55 - 17.05

Ask the Expert - Live Panel Q&A

Chair - Wajid Hussain

Panel - Session 4 Faculty

17.05

Closing remarks
